

JMK CONFLICT MINERALS STATEMENT

JMK, Inc. uses products containing both Tin & Gold. The products are produced by large multi-national companies. JMK, Inc. has no influence over the sourcing of material or production of these products.

1. COMPANY OVERVIEW

JMK, Inc. is a manufacturer of several electronic / electrical devices. The primary products are EMI/EMC power line filters. Other products are power supplies, audio amplifiers and power distribution control modules. JMK designs and manufactures these products in the United States and Mexico. JMK, Inc. was incorporated in 1975 in Amherst, New Hampshire. Our principal offices are located at 15 Caldwell Drive, Amherst, NH 03031. JMK, Inc. sells products through distribution, independent representatives and direct OEM's. JMK, Inc. products are used in commercial, military, medical and almost any end products requiring compliance with various EMC control specifications.

2. CONFLICT MINERALS STATEMENTS

- A. JMK, Inc. does not directly purchase tin, tantalum, tungsten or gold.
- B. Tin is sold to JMK, Inc. as part of a solder alloy. JMK, Inc. has no control over the sourcing of materials or production of the solder product.
- C. Gold is sold to JMK, Inc. as plating on connector terminals. These connectors are end products. JMK, Inc. has no control over the sourcing of materials or production of the connectors.

3. SECURITIES & EXCHANGE COMMISSION

Referencing the "FACT SHEET" published by the Securities & Exchange Commission, JMK, Inc. is exempt from filing the CMRT.

Contracting to Manufacture:

A company is considered to be "contracting to manufacture" a product if it has some actual influence over the manufacturing of that product. This determination is based on facts and circumstances, taking into account the degree of influence a company exercises over the product's manufacturing.

A company is not deemed to have influence over the manufacturing if it merely:

Affixes its brand, marks, logo, or label to a generic product manufactured by a third party.

Services, maintains, or repairs a product manufactured by a third party.

Specifies or negotiates contractual terms with a manufacturer that do not directly relate to the manufacturing of the product.

The requirements apply equally to domestic and foreign issuers.

The rest of the "FACT SHEET" is available on the U.S. Securities & Exchange Commission website at: <https://www.sec.gov/News/Article/Detail/Article/1365171562058>
